# Bas de Vreugd

*Beek-Berg en Dal*  *info@basdevreugd.nl*
*basdevreugd.nl*  *github.com/basdvreugd5*

## Profile:

Junior web developer with experience in Laravel, *Filament*, *PHP*, *JavaScript*, *HTML*, and *CSS*.
Skilled at creating responsive, user-friendly websites and applications
with a strong eye for design, thanks to a background in game art and 3D modeling.
Eager to grow as a developer, contribute to   meaningful projects,
and continuously learn new technologies.

## Technical Skils:

Frontend: **HTML**, **CSS**, **JavaScript**, **TailwindCSS**
Backend: **PHP**, **Laravel**, **Filament**
Design Tools: Photoshop, Illustrator, After Effects
Other: Git, UI/UX fundamentals, 3D Studio Max, Unreal Engine,Wordpress

## Education:

**Lambert Frankens College Nuborgh**, *Elburg* -- overgangsbewijs 3-4
Havo, Natuur en Techniek
***Ongoing self-learning in full-stack web development, Laravel, and modern frontend frameworks.***

## Experience

***Junior Developer (Work Experience Placement) --ICT-Maatwerk***
***2024-2025***

Contributed to client projects by assisting with front-end
development tasks and implementing small features in collaboration with the development team.

Gained practical experience working with PHP,
Laravel, and Filament, as well as HTML, CSS, and JavaScript for responsive layouts.

Worked on personal side projects during the placement,
applying newly learned technologies to strengthen problem-solving and coding skills.

Collaborated with colleagues to debug, improve,
and refine project functionality, gaining insight into professional workflows and teamwork.

***3D Artist / Game Art Projects — Freelance & Personal,***
2009-2024

Designed immersive environments and interactive assets
using 3D Studio Max and Unreal Engine.

Created visual content and animations with
Adobe Photoshop, Illustrator, and After Effects.

Developed a strong foundation in design principles, attention to detail,
and visual storytelling that now supports front-end development work.

## Strenghts:

*Blending creative design background*
*with technical web development.*
*Strong problem-solving and attention to detail.*
*Fast learner, motivated, and eager to collaborate on innovative projects.*
